

Family Fund

Helping disabled children

**We provide
grants for your
essential items!**

**We help families raising disabled, or seriously ill,
children and young people, across the UK.**

www.familyfund.org.uk

Making life easier

Family Fund supports families raising disabled, or seriously ill, children and young people with grants for essential items, giving families choice and control over what will benefit them the most. We provide grants for items such as kitchen appliances, clothing, bedding, sensory toys, play equipment, much-needed family breaks and computers and tablets. These items help make families' lives easier and remove some of the daily financial barriers they face.

In addition to our grant support, we also offer vital information, and signpost to other services available to families locally, regionally and nationally.

Can we help you?

We help families on low incomes who are raising a disabled, or seriously ill, child or young person, aged 17 or under.

Families living in England can apply once every 15 months. Families living in Scotland, Wales and Northern Ireland can apply once every 12 months.

Please visit our website for details on our eligibility criteria and how to apply today!

Tell someone about us

Whilst we help many families across the UK, there are many more that need our support. You can help us spread the word about our grants and services by telling other families who are raising disabled, or seriously ill, children and young people about us.

Help us help others

There are many ways for you to make a huge difference. Please visit our website for information on how you can support us, by volunteering or fundraising, to help deliver essential support to families raising disabled, or seriously ill, children and young people.

"We can't afford a break on one salary, so the grants from Family Fund have given us the chance to get away together and have a change of scene. We can experience new things as a family and make new memories. It's really important to have something to look forward to, and Family Fund gives us that."

"The grant for sensory toys has made a massive difference to us, especially to Meghan's development. Specialised toys are so expensive and we would never be able to afford them. Meghan doesn't understand mainstream toys as her play ability is so limited, due to her condition, and they aren't made robustly enough for her as she chews everything."

"The grant for the new garden fencing means that the garden is now a safe environment. It means so much that I can sit in the garden and Leon can enjoy playing with his toys, rather than having to cut the time short because Leon is climbing over the short fence and into the garden next door."
