

Numeracy - Day 1

WALT: Can I subtract 2 fractions?

Fluency

If the answer is an improper fraction change it to a mixed number fraction.

$$\frac{3}{8} - \frac{2}{8} =$$

$$\frac{2}{6} - \frac{1}{6} =$$

$$\frac{6}{10} - \frac{3}{10} =$$

$$\frac{4}{9} - \frac{2}{9} =$$

$$\frac{12}{8} - \frac{4}{8} =$$

$$\frac{10}{7} - \frac{3}{7} =$$

$$\frac{9}{11} - \frac{5}{11} =$$

$$\frac{13}{20} - \frac{3}{20} =$$

$$\frac{12}{8} - \frac{3}{8} =$$

$$\frac{14}{6} - \frac{5}{6} =$$

$$\frac{14}{7} - \frac{8}{7} =$$

$$\frac{12}{8} - \frac{3}{8} =$$

Climb the Ladder PE Home Learning

Can you be honest and only try and hit target two once you've hit target one?

Time to Learn:

- Place three targets on the floor in a line, one step away from each other.
- Using a small object can you throw the object and hit the first target.
- When you have hit the first target, only then can you move onto the next target.
- How many throws does it take to hit all three targets?
- If you are playing against a partner, the first player to hit all three targets is the winner.

Place the target marker closer to you. Only move it further away when you feel confident.

Playing against someone.
You have to hit the targets in reverse order, starting with the target furthest away!

Have a competition.
Create a league table and play against different family members.

Top Tips

Throwing Underarm

- Step forwards with one foot, releasing the ball from low to high using your opposite hand.

Let's Reflect

What did you learn after each throw to adapt for the next?
How did you keep focused?

Theseus and the Minotaur

Once upon a time, a long time ago, there lived a king named Minos. King Minos lived on a lovely island called Crete. King Minos had a powerful navy, a beautiful daughter, and a really big palace. Still, now and then, King Minos grew bored. Whenever King Minos was bored, he took his navy and attacked Athens, a town on the other side of the sea.

The people of Athens soon grew tired of the bully, King Minos. All the people of Athens agreed that something had to be done. Athens tried to make friends with King Minos, but nothing seemed to work. In desperation, the king of Athens offered King Minos a deal. If Minos would leave Athens alone, Athens would send seven Athenian boys and seven Athenian girls to Crete every nine years to be eaten by the Minotaur.

The Minotaur was a horrible monster that lived in the centre of a huge maze on the island of Crete. King Minos loved that old monster. He did like to give his monster a treat to eat now and then. King Minos knew his people would prefer he fed his monster Athenian children as a treat rather than the children of Crete. King Minos took the deal that the King of Athens offered.

- 1) What did King Minos often do when he was bored? Find a sentence.
- 2) Find and copy a word that shows that the king is often not nice to people.
- 3) How often did the King of Athens say he would send boys and girls to be sacrificed to the Minotaur?
- 4) Why do you think King Minos agreed to take the deal with the King of Athens?
- 5) Find a phrase that shows that the King of Athens had run out of hope that Crete and Athens would be friendly.
- 6) Where did the Minotaur live? Find a phrase.

CHALLENGE: Can you draw where you think the Minotaur lives? You might want to turn it into a puzzle for someone else at home to solve.
